The Aero Vodochody L-39 Albatros The best made better

**Equipped with modern large area
displays featuring colour touch screens**

The Aero L-39 Albatros is one of the most widely adopted jet trainers and remains in active service with air arms around the world. It is a robust, reliable, proven jet trainer. The ITTC fleet features upgraded cockpits with modern displays and hands-on throttle and stick controls. The ITTC fleet is comprised of 11 jet trainers, including Albatros, Delfin and Hawker Hunter aircraft.

ITTC graduates are prepared to lead in modern air combat.

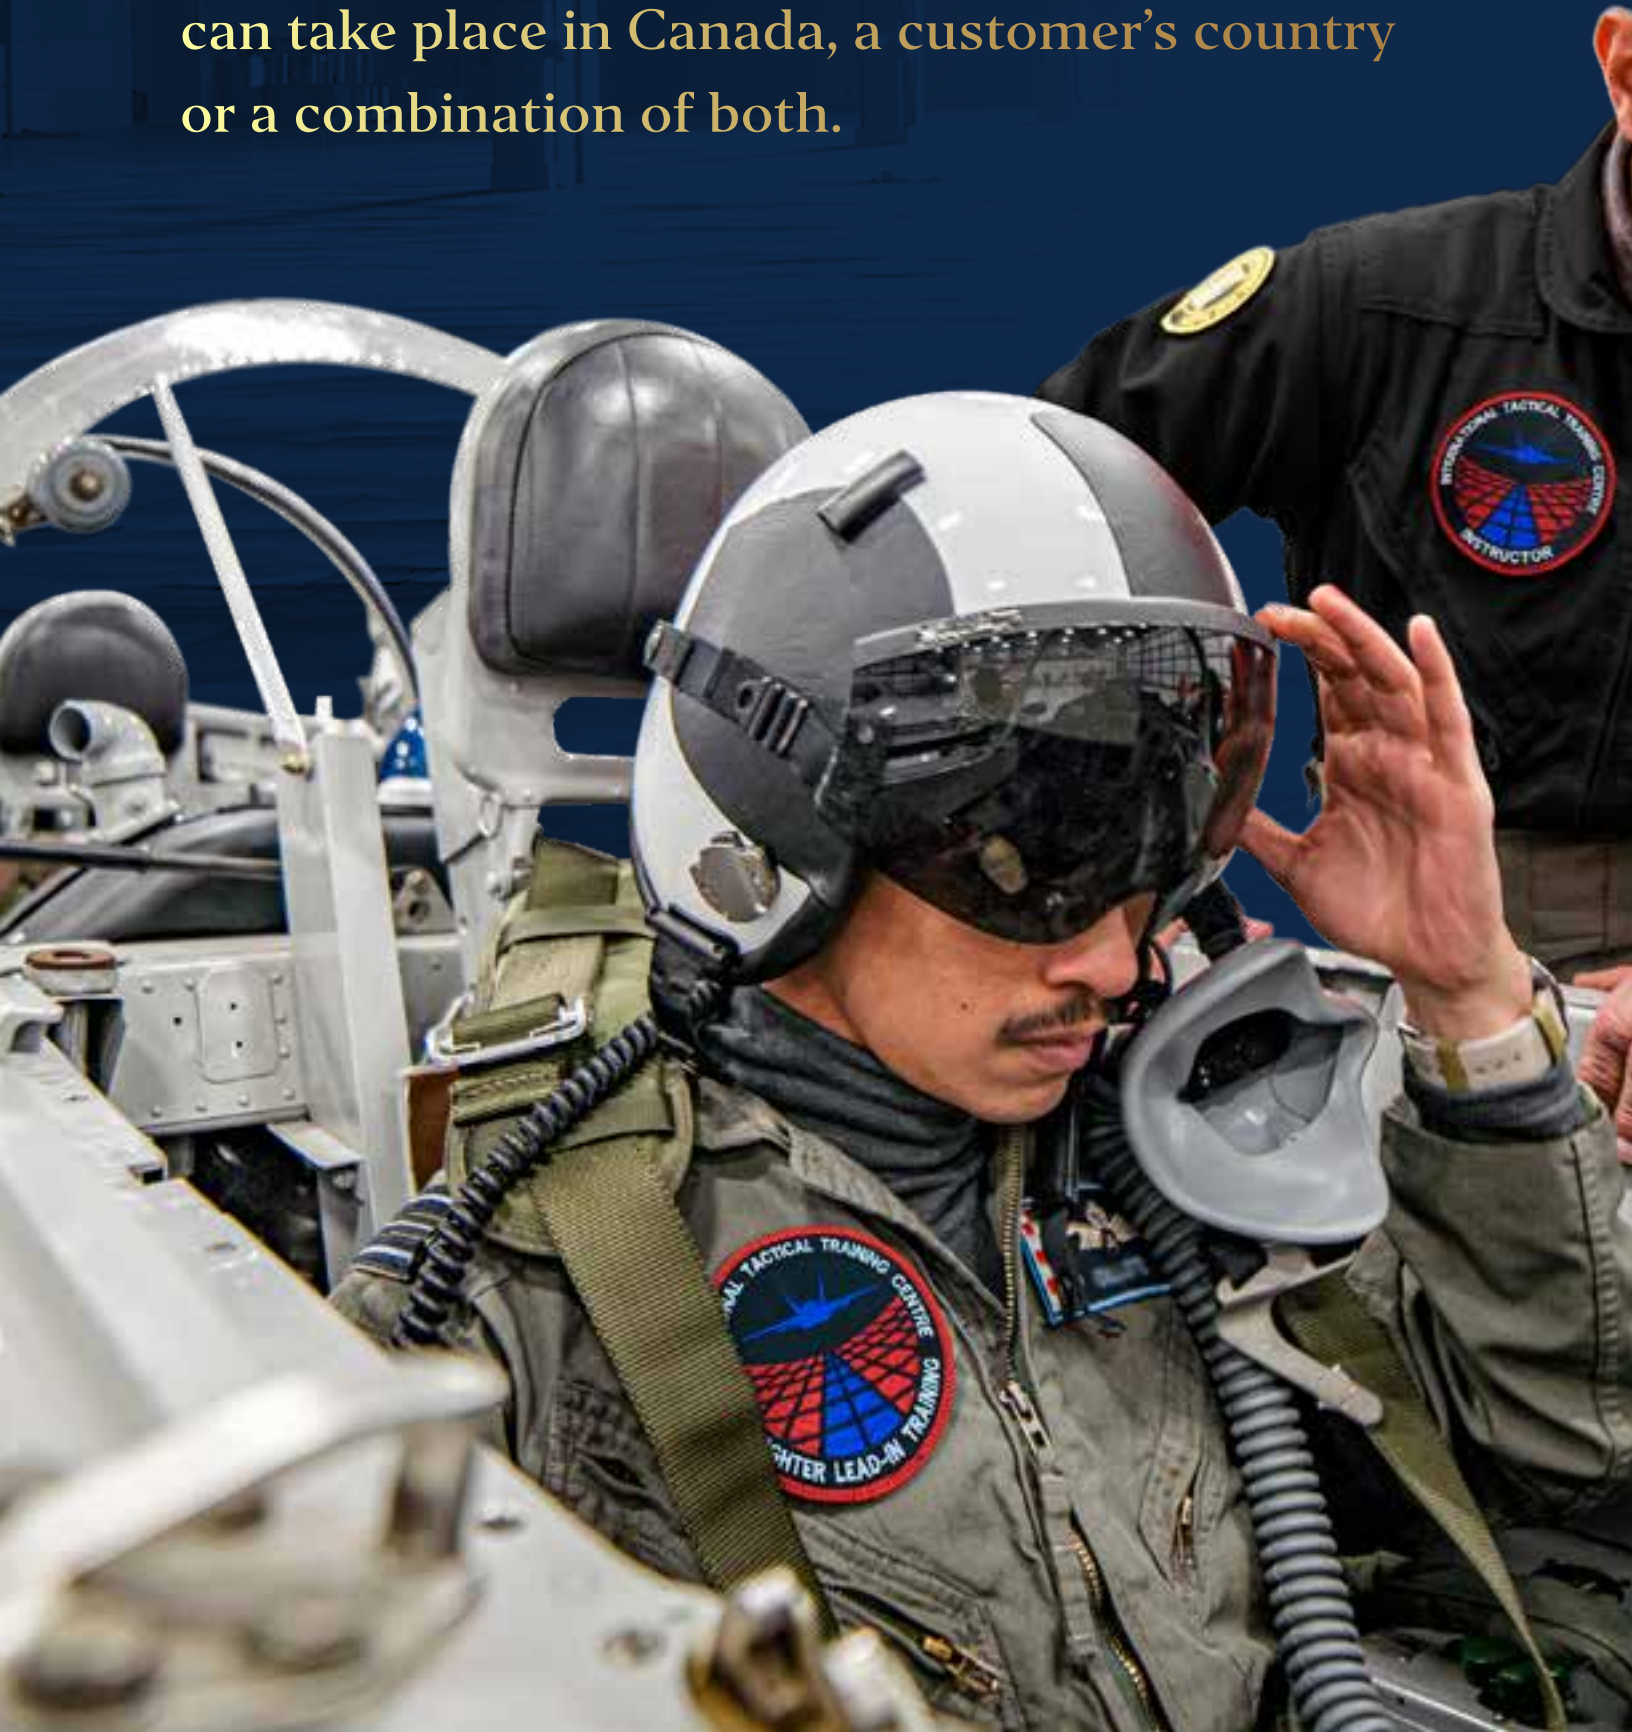

Advanced Aircraft Simulation Centre (AASC)

ITTC leverages the benefits of modern simulation technology and enhances the learning experience through the Advanced Aircraft Simulation Centre.

The AASC is continually expanding, adding new simulators to ensure training is up to date and relevant to anticipated student outcomes. Several new simulator types are under construction, including a weapons and tactics simulator. Existing simulators and facility capabilities include:

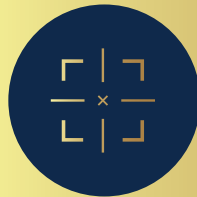

- Four F/A-18E/F domed simulators
- Four F-35A domed simulators
- One F-16 based Variable Stability System (VSS) engineering simulator
- One multi-role rotary-wing simulator
- One Boeing 787 full flight deck FBW simulator
- 4 F-16C domed simulators
- AW139 rotary-wing simulator
- A JTAC simulator

ITTC provides tailored training solutions for each customer's unique requirements. Programmes can take place in Canada, a customer's country or a combination of both.

Electronic Warfare

Rotary-Wing and Unmanned Aerial Systems Training

Rotary-Wing Courses

- Rotary-Wing Weapons and Tactics
- Combat Search and Rescue (CSAR)
- Ship/Helicopter Operating Limits

Unmanned Aerial Systems Courses

- UAS Operations and Tactics

Command and Control Courses

- Joint Terminal Attack Controller (JTAC) Course
- Fighter Controller Course
- Mission Commander Course

Student Care

Topflight Support

ITTC prides itself on providing outstanding support for students and their families. Our on-site Student Welfare Team ensures a smooth transition for life in Canada, whether helping place children in local schools or arranging extended medical coverage for students and their accompanying families.

From arrival to departure, ITTC helps alleviate the stress of students navigating in an unfamiliar country. Transportation is available for pick up and or drop-off at Pearson International Airport (CYYZ). Our Student Welfare Team helps students quickly settle in and be prepared to learn.

Expanding the Horizon for international training

ITTC is a well-established, Canadian-based tactical training school operating out of London, Ontario. Our world-class team of instructors is here to train international and domestic pilots to become experts in air-to-air combat. Our portfolio of clients continues to grow and includes work with over 25 air arms worldwide. ITTC provides elite pilots with the unique opportunity to hone their skills by drawing upon the knowledge and experience of internationally acclaimed instructors in a multicultural environment.

ITTC delivers multiple areas of expertise based on modern scenarios, including Fifth Generation concepts and threats, cyber concepts and threats and other modern technologies to keep the training programmes relevant year to year.

A world-class modern training facility in Canada

The facilities in London, Ontario, are among the most modern and ideally located in Southern Ontario, south of Toronto. ITTC's continuous investment in technology, facilities and top-notch instructors provides a stimulating learning environment, staffed by a team of international professionals.

The Best Learning Environment

ITTC is a division of ITPS Canada Ltd.

- Three-pronged learning with ground school, simulation and flying
- Spacious classrooms with full audiovisual equipment
- Direct access to aircraft and simulators
